Course Overview

After taking this course, a teacher will have full confidence in how to help their students master ELD (English Language Development) Standards. Research studies, videos, and sample in-classroom conversations are delivered in this class so that the educator has a solid understanding of ELD, their alignment with the common core standards, and the practices that help students master the English language. In addition to giving the educator a baseline understanding of ELD, the course also shows how to use academic conversations and technology to foster a student's master of the English language.

Course Objectives

After completing this course, educators will:

- Develop a thorough understanding of the new California ELD standards as well as grasp research-based strategies that support the mastery of those standards.
