

## iPads in the Classroom (P-12)

3 P Credits offered through After School Professional Development Program (ASPDP)  
36 Hours

### Course Instructor and Author:

Donny Wise has been an educator for 20 years, in addition to working for UCLA, Hughes Space and Communication, Monster.com, IDC, and RAND Corporation. He is known for providing very clear, methodological approaches to technology instruction and application, while being inspiring, as well. He is passionate about closing the opportunity and achievement gaps for students by empowering and equipping teachers with relevant, practical, research-based pedagogy and tools.

### Course Objective & Learning Goals:

During this course you will learn how to use an iPad effectively in the context of your professional life as an educator. Many iPad apps will be described for your benefit and teachers come away with their own iPad toolkit (Quick Start Guide) that they can use with their students. This class is for the teacher who has no experience with iPads, as well as for professionals with a solid understanding of iPads. Participants complete the course with a personalized iPad “toolkit” for their classroom use.

### Course Outline:

- Lesson 1: Learning iPad Features & Functions
- Lesson 2: Differences between Desktops & iPads, with History
- Lesson 3: Keyboarding on an iPad
- Lesson 4: iPads & Standardized Tests
- Lesson 5: iPads for Differentiated Instruction
- Lesson 6: iPads to Teach Math & English Language Arts
- Lesson 7: The Top 10 iPad Apps with Learning Value
